

The Up7 South! World Map
 001 100 100-238-1200
 www.up7.com

WHO SAID "NORTH" WAS "UP"?

The world is a sphere, but we see it as a flat map. This is a map of the world as it would appear from the North Pole. The North Pole is at the top, and the South Pole is at the bottom. This is the traditional way of showing the world on a map.

The traditional map of the world shows the North Pole at the top. This is the way most people are used to seeing the world.

This map shows the world as it would appear from the South Pole. The South Pole is at the top, and the North Pole is at the bottom.

This map shows the world as a series of geometric shapes. It is a stylized representation of the world's continents.

This map shows the world as it would appear from the East Pole. The East Pole is at the top, and the West Pole is at the bottom.

This map shows the world as it would appear from the West Pole. The West Pole is at the top, and the East Pole is at the bottom.

The globe shows the Earth as a sphere. The South Pole is at the top, and the North Pole is at the bottom.

WHAT'S UP7 SOUTH! WORLD MAP

This is the 'Up7 South!' world map. It shows the world as it would appear from the South Pole. The South Pole is at the top, and the North Pole is at the bottom.

Reading a Map

Maps:

- ▶ represent all or part of the Earth's surface
- ▶ show information through lines, colors, shapes, and other symbols
- ▶ help us locate places, measure distances, and plan trips

Title

North America

Grid

Helps find a place on a map.

Legend

Explains what the symbols and colors on a particular map represent.

Meridians

Imaginary lines that run north and south from the North Pole to the South Pole. They measure longitude, the angular distance east or west of the prime meridian.

Map Index

Helps locate places on a map. Places are shown in alphabetical order along with their grid positions.

Parallels

Imaginary lines that encircle the globe from east to west. They measure latitude, the angular distance from the equator toward either pole.

Legend

- ★ Capitals
- ▲ Mountains
- International Boundary
- Rivers
- Coasts, Seas, & Lakes
